

Renee Cologne - The Pitch

Renee Cologne is a NC-raised singer, songwriter, multi-instrumentalist, producer who makes electronic, orchestral pop music. In *Coverlings*, Cologne breathes new life into a collection of 11 well-known pop songs from the 60's, 70's and 80's; reconstructing them using both human (earthling – voice, acoustic, orchestral) and machine (alien – electronic, beats, synths) elements in a way that is fresh, rich and nuanced.
